Career Objectives

A builder and continuous learner at the intersection of AI, cloud, and business. Through self-directed projects, enterprise-level internship experience at PwC, and industry certifications in AI and data, I have developed a practical understanding of how intelligent systems are designed, deployed, and governed at scale. I want to build things that matter – using technology not just to automate, but to meaningfully empower the people, organisations, and processes I work with.

Skills

- AWS and Azure
- Python Programming Language
- Proficient in Alteryx Designer
- Excellent written and verbal communication skills
- Highly motivated to learn
- Well organised and methodical

Experience

Administrative Assistant

2026 Ongoing

PwC Singapore Risk Services and AI

- Conducted 3-year total cost of ownership modelling for an Azure data lake migration, analysing storage tiering costs, Databricks cluster configurations and DBU pricing models, and Private Endpoint billing to produce accurate budget projections
- Mapped and documented a medallion architecture data pipeline migrating on-premises tax reporting workflows to Azure, covering ADF ingestion, Databricks CDC processing of SAP datasets, and Power BI reporting layers
- Produced cloud asset listings with technical justifications for infrastructure design decisions across security, compute, and storage tiers

Event Organiser

2022 - 2023

Interact Club, Hwa Chong Institution

- Played an instrumental role in organising, event outreach and hosting online webinar.
- Planned and executed numerous volunteering programmes.

Research Team Lead

2019 - 2021

Science in Action, Clementi Town Secondary School

- Directed two research projects on COVID-19 and Cancer.
- Planned and conducted all experiments.
- Lead pitches and proposals for our research and its potential.

Vice-Captain

2019 - 2021

Basketball Club, Clementi Town Secondary School

- Coordinated with teachers and exco members to take charge of training and foster club culture.
- Managed all team logistics at competitions and external events.

Education

Hwa Chong Institution / 'A' Levels

2022 - 2023

Clementi Town Secondary School / 'O' Levels

2018 - 2021

Awards

Global Youth Science and Technology Bowl Silver Award (2021)

Singapore Science and Engineering Fair Gold (2021)

Singapore Science and Engineering Fair Second Place (2020)
